

SAAB ROYALE RESORT COVID-19 ACTION PLAN

Following the instructions of the Ministry of Health and the Ministry of Tourism, Saab Royale Resort is implementing a new health protocol. The Protocol includes the development of an Action Plan and the development of a Suspected Case Management Plan. The aim of the Action Plan is to prevent the occurrence and effective management of suspicious cases in order to limit the exposure of staff and guests, always in accordance with the current guidelines of the Ministry of Health. The Action Plan complies with the recommendations of the Ministry of Health and will be revised according to the developments.

The measures described in the Action Plan and the Suspected Case Management Plan are meant to protect our staff and guests and to outline the necessary measures to prevent and protect against COVID-19 disease.

These measures include:

Individual Hygiene Measures & Personal Protective Equipment

The management has taken measures to implement good personal hygiene practices in the workplace and oversees their continued implementation. Specifically:

- Staff and third parties are informed and encouraged to comply with good personal and respiratory hygiene practices (hand washing – cleaning, nose and mouth covering during coughing or sneezing, etc.).
- Appropriate facilities and required materials have been provided to employees and appropriate mechanisms for hand sanitization have been placed at the entrances / exits and in the common areas of the resort.
- Staff have been supplied with the appropriate Personal Protective Equipment (PPE), in accordance with the special instructions of the Ministry of health.
- The adequacy of PPE stocks is regularly supervised.
- Staff have been trained how to safely use their Personal Protective Equipment and their proper use is being supervised.
- Third parties entering the resort being supervised and informed to exercise social distancing and to use Personal Protective Equipment.
- A program of rolling staff arrivals and departures has been implemented to avoid congestion and to ensure social distancing.
- Staff have been informed and trained on the COVID-19 suspected case management plan.
- Staff have been informed and trained on specific cleaning instructions in the event of a suspected COVID-19 case. Specifically:
 - The person is asked to remain in their room with the door closed.
 - Is immediately given a simple surgical mask and tissues.

- It is forbidden for staff members to enter the room and only one member of the staff deals with the guest's requests.
- Used personal protective equipment is discarded in a closed rubbish bin.
- After the disposal of the protective equipment, hands are meticulously washed.

Staff

Each member of the resort staff strictly adheres to the basic protection measures against COVID-19. In particular, employees practice the following personal and respiratory hygiene practices:

- Frequent hand washing with soap and water for at least 40 seconds, before and after contact with money or guests' items, before eating, before and after work breaks, after a visit to the toilet and careful hand drying with disposable paper towels and disposal in bins.
- Covering nose and mouth during coughing or sneezing with a tissue or the inner part of the elbow.
- Disposal of paper towels or other personal hygiene items used to disinfect work surfaces in a closed bin.
- Avoiding shaking hands and close physical contact, keeping a distance of at least two meters from colleagues, guests or third parties in all workplaces, resort rooms and rest areas.
- Avoiding touching the front of the mask or face shield.
- Avoiding touching of face with hands.
- Informing the health officer in case of:
 - illness or symptoms relating to COVID-19 infection or
 - contact with a possible or confirmed case.
- Staying at home in case of illness and informing the health officer.
- Returning to the workplace only if the laboratory test is negative and after 14 days after close contact with a confirmed COVID-19 case.

Reception

Saab Royale Resort' staff takes the necessary hygiene measures, keeps a distance of at least 1.5 meters from the customers and adheres to the following hygiene rules:

- When requested, Saab Royale Resort:
 - informs visitors about the accommodation policy and the measures taken to deal with any incidents,

- Provision of special equipment (medical kit) in the event of a COVID-19 case, such as gloves and disposable masks, antiseptics, cleaning wipes, apron, long-sleeved robe, laser thermometer.
- Training of staff to recognize guest symptoms and report them directly to the Health Officer.
- Provision of hand sanitizer.
- Regular disinfection of the reception surfaces.
- Appropriate configuration of the reception, installation of floor markings at a distance of two meters indicating where guests should stand.
- Implementation of electronic check in / check out procedures to reduce waiting time and overcrowding.
- Accommodation expenses are paid electronically and bills, invoices and receipts are sent by email.
- Disinfection of keys.

Housekeeping

- The housekeeping staff uses simple surgical masks, and gloves.
 - Once the Personal Protective Equipment has been removed and disposed of in a closed bin, hands are thoroughly washed with soap and water.
 - All hard surfaces are cleaned and disinfected with disposable cloths / fabrics or cleaning paper and sponges with detachable heads.
 - Discarded equipment is treated as a contagious contaminant and discarded in special bags.
 - An antiseptic is used after cleaning with a neutral detergent. As an extra measure we use certified biocide liquids for the safety of our staff and guests.
 - Housekeeping services are being strengthened in all public areas, especially in "high risk" facilities.
-
- Thorough cleaning and good room ventilation are applied during the period between stays.
 - When using disinfectants, the space is well ventilated. Splashing and spraying during cleaning and disinfection is avoided. In the event of a confirmed COVID-19 case:
 - All surfaces and objects that may have been contaminated are washed and disinfected according to the above instructions.
 - Housekeeping staff uses a simple surgical mask and gloves. ○ Touching of the face with hands is avoided. ○ After the protective equipment has been removed, it is properly disposed of and hands are thoroughly washed with soap and water.
 - Discreet monitoring of guest symptoms.
 - Housekeeping services will not be provided during a guest's stay unless otherwise indicated by the guest during the pre-registration process or check in. Should these services be requested, guests are informed that they must leave the room before the housekeeping staff can enter in order to avoid overcrowding. Turn down service is provided only under special circumstances and after a formal request at the reception.
 - For departures, 2 protocols apply:

- Normal cleaning and waiting 24 hours before the room is available to a guest or
- Meticulous cleaning - disinfection of the rooms and bathrooms for same day use.
- Decorative objects have been removed.
- Fabric surfaces are cleaned with a steam device
- Doors and windows are opened daily for natural ventilation of spaces.

Kitchen

- All kitchen staff are required to strictly adhere to the Ministry of Health rules.
- Goods are received by a specific member of staff who is always required to wear the appropriate Personal Protective Equipment.
- Implementation FIFO procedure (first in - first out).
- Kitchen staff are required to keep distances according to the guidelines set by the health authorities.
- Unauthorized personnel are prohibited from entering the kitchen.

Restaurant

- Restaurant staff are taking all the necessary hygiene and social distancing measures.
- All decorative items have been removed.
- Commonly used multi-purpose items have been removed.

- The maximum number of customers allowed in the restaurant is defined by the ratio of 1 customer per 1.5 sq. of total usable operating space.
- The maximum number of seated people at a table 2
- The minimum distances between the tables have been applied depending on the layout of the seats.

Common Areas

Common areas include the lobby, coffee lounge, pool area and play room the following measures apply:

- Common areas are well ventilated. Hand sanitizers have been placed in all common areas of the resort.
- Signs have been installed to remind customers to practice social distancing.
- Decorative objects and multiple-use objects have been removed.
- All surfaces are regularly cleaned and disinfected.
- Overcrowding in toilets in public toilets is prohibited.

Environmental Measures

- All workplaces are adequately ventilated are regularly maintained.
- All workplace surfaces, common areas and equipment are regularly cleaned.

- In the event of a possible or confirmed case of COVID-19 infection, all areas will be disinfected according to the instructions of the Ministry of Health. •
Covered waste bins have been installed, where all disposable Personal Protective Equipment or other means used to disinfect work surfaces can be disposed of immediately after use.
- Work clothes and Personal Protective Equipment are frequently cleaned and safely stored.

COVID-19 Suspected Case Management Plan

If a guest shows symptoms relating to COVID-19, the following procedure is followed:

- The resort's manager will contact the doctor and the doctor will visit the suspected case for evaluation. If necessary, a COVID-19 test will be performed.
- The guest will be asked to remain in their room with the door closed, until the lab results are returned.
- Patients who show symptoms of respiratory infection, will receive a simple surgical mask and tissues immediately.
- Members of staff are advised to avoid entering the patient's room unless absolutely necessary, in which case a member of staff will be selected to deal exclusively with the patient. Used protective equipment is discarded in a covered waste bin and is not reused.
- After discarding the protective equipment, staff are required to wash their hands thoroughly.
- If the COVID-19 test returns positive, the case will be reported to the Ministry of Health who will then provide further instructions.

Note: The client will be responsible for all bills and charges for covid-19 test and additional kits provided by the hotel.

If an employee exhibits symptom relating to COVID-19, the following procedure is followed:

- The resort's manager will contact the doctor who will visit the suspected case for evaluation. If necessary, a COVID-19 test will be performed.
- The member of staff will be asked to remain in their room with the door closed, until the lab results are returned.
- Patients who show symptoms of respiratory infection (cough, sneezing, runny nose), will receive a simple surgical mask and tissues immediately.
- All surfaces and equipment that have come into contact with a patient are thoroughly cleaned.
- If the COVID-19 test returns positive, the case will be reported to the Ministry of Health who will then provide further instructions.
- An investigation is then carried out to determine the possible exposure of other employees or guests, who will then be asked to follow the instructions of the Ministry of Health

Cleaning and Disinfecting a Patient's Room

- All surfaces that have come into contact with a patient are thoroughly cleaned.
- Housekeeping staff are required to use a simple surgical mask and gloves.
- After removing their gloves, staff are required to wash their hands thoroughly
- Fabrics are cleaned with a Washing machine (temperature > 70°C) and disinfectant.
